Good Evening All,

1. Concrete work is complete and it went very well.
2. Field is open for all contractors to complete their respective work beginning next week.
3. Our goal is to fill water in the pool before the holidays. This will give us all of January to chemically treat the pool and get the pool ready for use in February 2022.
4. I have not been able to succeed in getting a price for replacing Gutters and Leaders on Building 6. Jim Carlson has a price from a contractor and it appears very high. Please make any recommendations on how to find a gutter guy?
5. We will need a landscaping company to get some topsoil and plant some evergreens ( small plants) alongside the fence and at the future bathroom location. Who is our landscaper? Planting can take place in Spring but I would like to fill Planting beds with topsoil at the earliest for safety.
6. Can someone take upon a task to see what kind of Natural Gas Grill we have to purchase? This Grill can be scheduled to arrive in January 2022 or later.
7. I am in contact with England Fence to secure the Pool Area before the holidays with new gates and locks. England Fence will be onsite on Wednesday, December 8th to install posts at the 13feet fence openings. Gates are in fabrication and I was not able to get an installation date from them. England Fence will have to recommend to us what to do with building #6 door lock. The same electronic fob mechanism on this door would be ideal for access to the pool.

I can not think of any other items at this time to report. Please feel free to add more items to the above list for discussion.

We will keep in touch and have a great evening.

Thank you,  
Miten
